

PROJECT EXPERIENCE SUMMARY

Deloitte Offices Project

Purpose

This document is maintained as part of my personal professional portfolio to demonstrate my experience and involvement in the Deloitte Offices Project. It does not contain confidential company documents, commercial information, supplier prices, proprietary drawings, or client-sensitive data.

My Role in the Project

- Reviewing tender documents and project specifications.
- Studying engineering drawings and schematics.
- Preparing and reviewing Bills of Quantities (BOQ).
- Coordinating supplier quotations and equipment pricing.
- Evaluating technical offers and technical literature.
- Supporting procurement and material selection.
- Assisting with project documentation and submissions.
- Participating in testing, commissioning, and project handover.
- Reviewing operation and maintenance requirements.

Project Documentation Experience

- Tender Documents
- Technical Specifications
- Engineering Drawings and Schematics
- BOQ Preparation and Analysis
- Supplier Quotations
- Technical Data Sheets
- Equipment Catalogues
- Project Submission Documents
- Handover Documentation
- Operation and Maintenance Manuals

Confidentiality Statement

- This portfolio summary is intended only to demonstrate my professional experience. All original project documents, drawings, BOQs, supplier quotations, and commercial information remain the property of the respective client and company and are not included in this personal portfolio.
